## From Subscription to Qualification

**For the latest subject information and prices please always refer to the online version of this guide.**

Although many subscribers join for continuing Professional Development, you can also use Subscription as a pathway to nationally recognised Units of Competency, Skills Sets, Certificates and Diplomas.

If you would like nationally recognised outcomes from your Subscription, please follow these steps:

### **1 – Identify which Subjects you need to complete (and in what order if applicable).**

This document lists which Subjects map to which units of competency in which qualifications.

### **2 – Complete the assessment for the subject.**

Assessments are accessed within your Subscription. We recommend you complete the assessment as you work through the subject (rather than leaving it to the end) and submit before you start the next subject.

### **3 – Enrol in the Assessment**

As soon as the assessment is ready to submit, click the 'Enrol Now' link at the end of the Assessment.

At this time you will pay the 'Assessment Only' fee for that subject and be officially enrolled into the relevant units of competency and have your assessment passed to an assessor.

Resubmissions: If you are unsuccessful on your first attempt, but are very close, you can resubmit for no additional fee. For anything more, a Resubmission Fee of \$40+gst will be charged per attempt.

### **4 – Recognition**

Each successfully completed assessment provides you with one or more formal units of competency. Once you have all of the units of competency required for a particular qualification, you can use Credit Transfer to attain that qualification...or qualifications.

Some subjects contain units which require you to undertake placement hours within industry. If you are seeking qualification outcomes from your study, we strongly recommend you source and commence your placement as soon as possible, as the last thing you want is to have graduation delayed due to outstanding hours.

Although most subjects can be completed in any order, if you intend to complete a full qualification we usually recommend you complete them in the order listed. Where there is a requirement to complete subjects in a certain order, this has been detailed in this document.

For full terms and condition relating to Subscription and Per Subject Assessments, please refer to the Student Handbook and Online Shop.
